

Hello Tina!

Don't mind at all.

Everyone there is always wonderful, pleasant, and efficient.

Office staff is great... whenever I call during business hours, I seem to get a human (which I love).

As far as the guys that do the work... they are always on time. They are professional. They come in. They do their thing. They give me any info I need. And they leave. Best service ever! And if they are running late or there is a change in plans, someone always calls me to let me know (so I'm not left hanging around waiting).

So, I LOVE Airhart Electric. I also really like getting those leaflets in the mail to tell me little things that I didn't know (the latest one was about Lumens). It's always very well written so that I understand it (it's not way above my head).

Thank you for everything!

Joyce Farias
